COMPANY PROFILE

EXECUTIVE SUMMARY

Introduction

Arvind Industrial Hygiene Consultancy is an industrial hygiene survey firm committed to ensuring workplace safety and environmental health through comprehensive assessments and solutions. With a focus on meticulous data collection and analysis, we deliver actionable insights to protect employees, mitigate risks, and uphold regulatory compliance. It has been set-up by the renowned experts in the field of occupational health, engineers, chemists & researchers. The activity involves the monitoring of physical, chemical, biological and ergonomic hazard along with suggestions and recommendations in terms of engineering, personal, medical and administrative measures for improvement of health and safety conditions in the work place.

Arvind Industrial Hygiene Consultancy is running under the able leadership of Dr Avinash Verma (M.Sc., PhD & AIHC Certified) who is having 40 years of experience & expertise in the field of Industrial hygiene in different capacity and he has retired as DGM, Bhilai Steel Plant. He is having 28 research papers published in national and international journals under his belt. He has presented 25 papers in national & international conferences including one conference in 10th World conference of EH in Brisbane, Australia. He is member of NSC, American Industrial Hygiene Association, International Commission On Occupational Health (ICOH), MEDICHEM INTERNATIONAL & IAOH.

Key Services

Risk Assessment and Management: We conduct thorough assessments to identify potential hazards in the workplace, ranging from chemical exposure to ergonomic risks. Our goal is to proactively mitigate these risks and develop strategies to safeguard the health and safety of workers.

Exposure Monitoring: Utilizing state-of-the-art equipment and techniques, we conduct comprehensive **exposure monitoring of Respirable Dust, Heat, Noise (area & personnel), Ventilation, Illumination, HAWB Vibration, Radiation, Gases & Chemicals, COSHH** to assess the levels of various contaminants present in workplace environment. This data forms the basis for informed decision-making and the implementation of effective control measures.

Indoor Air Quality Management: We specialize in assessing and improving indoor air quality, addressing issues such as ventilation systems, airborne pollutants, and microbial contaminants. Our holistic approach ensures that indoor environments are conducive to the health and well-being of occupants.

Compliance Assistance: Navigating the complex landscape of industrial hygiene regulations can be daunting. Our team provides expert guidance and support to ensure that our clients remain compliant with relevant regulatory requirements, avoiding potential penalties and liabilities.

Training and Education: We believe that knowledge is key to promoting a culture of safety in the workplace. That's why we offer comprehensive training programs tailored to the specific needs of our clients, empowering employees with the skills and awareness necessary to protect themselves and others.

Differentiators

Expertise and Experience: Our team comprises seasoned professionals with extensive experience in industrial hygiene and occupational safety, ensuring accurate assessments and effective solutions.

Customized Solutions: We understand that each workplace is unique. Therefore, we tailor our services to address specific challenges and objectives, providing personalized recommendations. **Comprehensive Reports:** Our reports are detailed and comprehensive, offering clear insights, actionable recommendations, and compliance documentation.

Regulatory Compliance: We stay abreast of evolving regulations and standards, ensuring that our clients remain compliant with relevant laws and guidelines.

Client Benefits

Enhanced Safety: By identifying and mitigating workplace hazards, we help enhance employee safety, reducing the risk of accidents and occupational illnesses.

Improved Productivity: A safer and healthier work environment fosters higher morale, engagement, and productivity among employees.

Cost Savings: Proactive management of workplace hazards can lead to cost savings by minimizing incidents, workers' compensation claims, and regulatory fines.

Regulatory Peace of Mind: Our clients can rest assured knowing that their facilities meet regulatory requirements and are well-prepared for inspections.

Client Portfolio

We are already giving our services to more than **70 small to large scale industries of all segments including Jindal South Wing Steel Plant, Jindal Steel & Power Limited, Adani Power, Ambuja Cement, ULTRATECH Cement, VEDANTA Group, MP Birla Cement, JK Cement, Shree Cement, Adani Ventures Limited, Bharat Petroleum, Hindustan Petroleum, Indian Oil Corporation Limited, Petrofac and many more.**

Conclusion

Arvind Industrial Hygiene Consultancy is dedicated to partnering with organizations to create safer, healthier, and more productive workplaces. Through our comprehensive services, expertise, and commitment to excellence, we aim to be the premier choice for industrial hygiene solutions.
